Barcode 400+ RFID

The iSeries RFID Labeling Software.
Feature
Now you can easily comply with your customers EPC (Electronic Product Code) RFID requirements using the Barcode400 RFID Option. Label design is a snap using the compliance templates available from T.L. Ashford. The Barcode400 RFID Option will print and encode RFID “Smart Labels” with data directly from your iSeries system. “Smart Label” templates are available for such companies as Wal-Mart, Target Stores, Department of Defense and others.

Benefits
With the Barcode400 RFID Option you can easily comply with a variety of RFID standards. There is no need to use your valuable programming resources.

Current users of Barcode400 will find the implementation of RFID technology as simple as adding new fields to an existing label format. New users will realize the simplicity of label design, benefit from the ease of integration, and realize the efficiency and ease of use for which Barcode400 is known.

As compliance standards change, Barcode400 will change to meet your needs.

Value
Barcode400 has a proven track record of meeting the ever changing standards for the AS/400 / iSeries environment. T.L. Ashford has been developing software for this market since 1983.

Barcode400 is backed up with an award winning Technical Support Team that is committed to customer satisfaction.

Requirements
- iSeries
- Barcode400-U

RFID Application Examples
- EPC carton labels
- EPC pallet labels
- Blood bank labels
- Asset tracking
- Intelligent flagging
- Medical labels
- Pharmaceutical dosage labels
- Point of sale
- Ski lift park wrist bands
- Supply chain management
- Logistics

RFID Printers Supported
- Zebra R4Mplus
- Zebra R110X Multi Protocol
- Zebra R110Xpplus
- Zebra R110PAX3
- Zebra R110PAX3 Print/Apply
- Sato CL409e RFID
- Sato CL412e RFID
- Sato MH485se RFID
- Printronix SL5000e
- Printronix SL5000e C1
- Printronix SL 5204e RFID
- Printronix SL5304e RFID
- Printronix SL5306e RFID
- Printronix SL5308e RFID
- Printronix SL5208e RFID
- Printronix SL5308e RFID
- Paxar / Monarch 9855 RFID
- Datamax I-4210 RFID UHF/EPC
- Avery 64-05 RFID
- IBM Infoprint 6700 Series with PGL
- IBM 5500-R40 RFID
- IBM 5500-R60 RFID
- IBM 5500-R80 RFID
- Intermec Intellitag® FM4i with IPL

Supported RFID Tags
- Class 1 tags
- Class 0 tags
- Class 1 Gen 2
